Backhaul pole is denoted by a white hexagon

Bond Number if you have one on file with the Township _____

The Town of Denmark hereby grants Applicant a permit for utility maintenance or construction to occur within a right of way or utility easement within Denmark Township subject to the following conditions:

1. Applicant submits completed/signed application form, site map, and $75 permit fee (if no permit fee escrow exists).
2. Applicant shall restore premises by filling any holes and trenches and will sod or seed any area disturbed by construction.
3. Applicant will contact Township and advise them of project completion and right of way restoration.
4. Township will inspect the premises and advise applicant of any further restoration necessary, if applicable.
5. If weight restrictions are in effect, all Town Roads are restricted to traffic with no more than 5 tons per axle.
6. In the event permit is violated Township may assess a penalty against applicant. Any violations of this permit may result in revocation of permit or appropriate monetary penalties to insure compliance or correction of violations.
7. A signed copy of the permit application must be returned to the Township before the Permit is valid.
8. This permit does not allow the applicant to trespass on private property and is only being given for maintenance or construction within the road right of way or utility easement owned or controlled by Denmark Township.
