**RE: Non-wetland Determination: Minor Lot Split, Haukendahl Home Site,
Denmark Township, MN**

Dear Mr. Bopray:

The South Washington Watershed District (SWWD) has reviewed the above mentioned site for the existence of wetlands. The site for the proposed house and driveway construction is located on the bluff above Trout Brook outside of any wetland resources. The SWWD concurs that no wetlands exist on the site. Therefore the SWWD does not require further action on this site regarding wetlands.

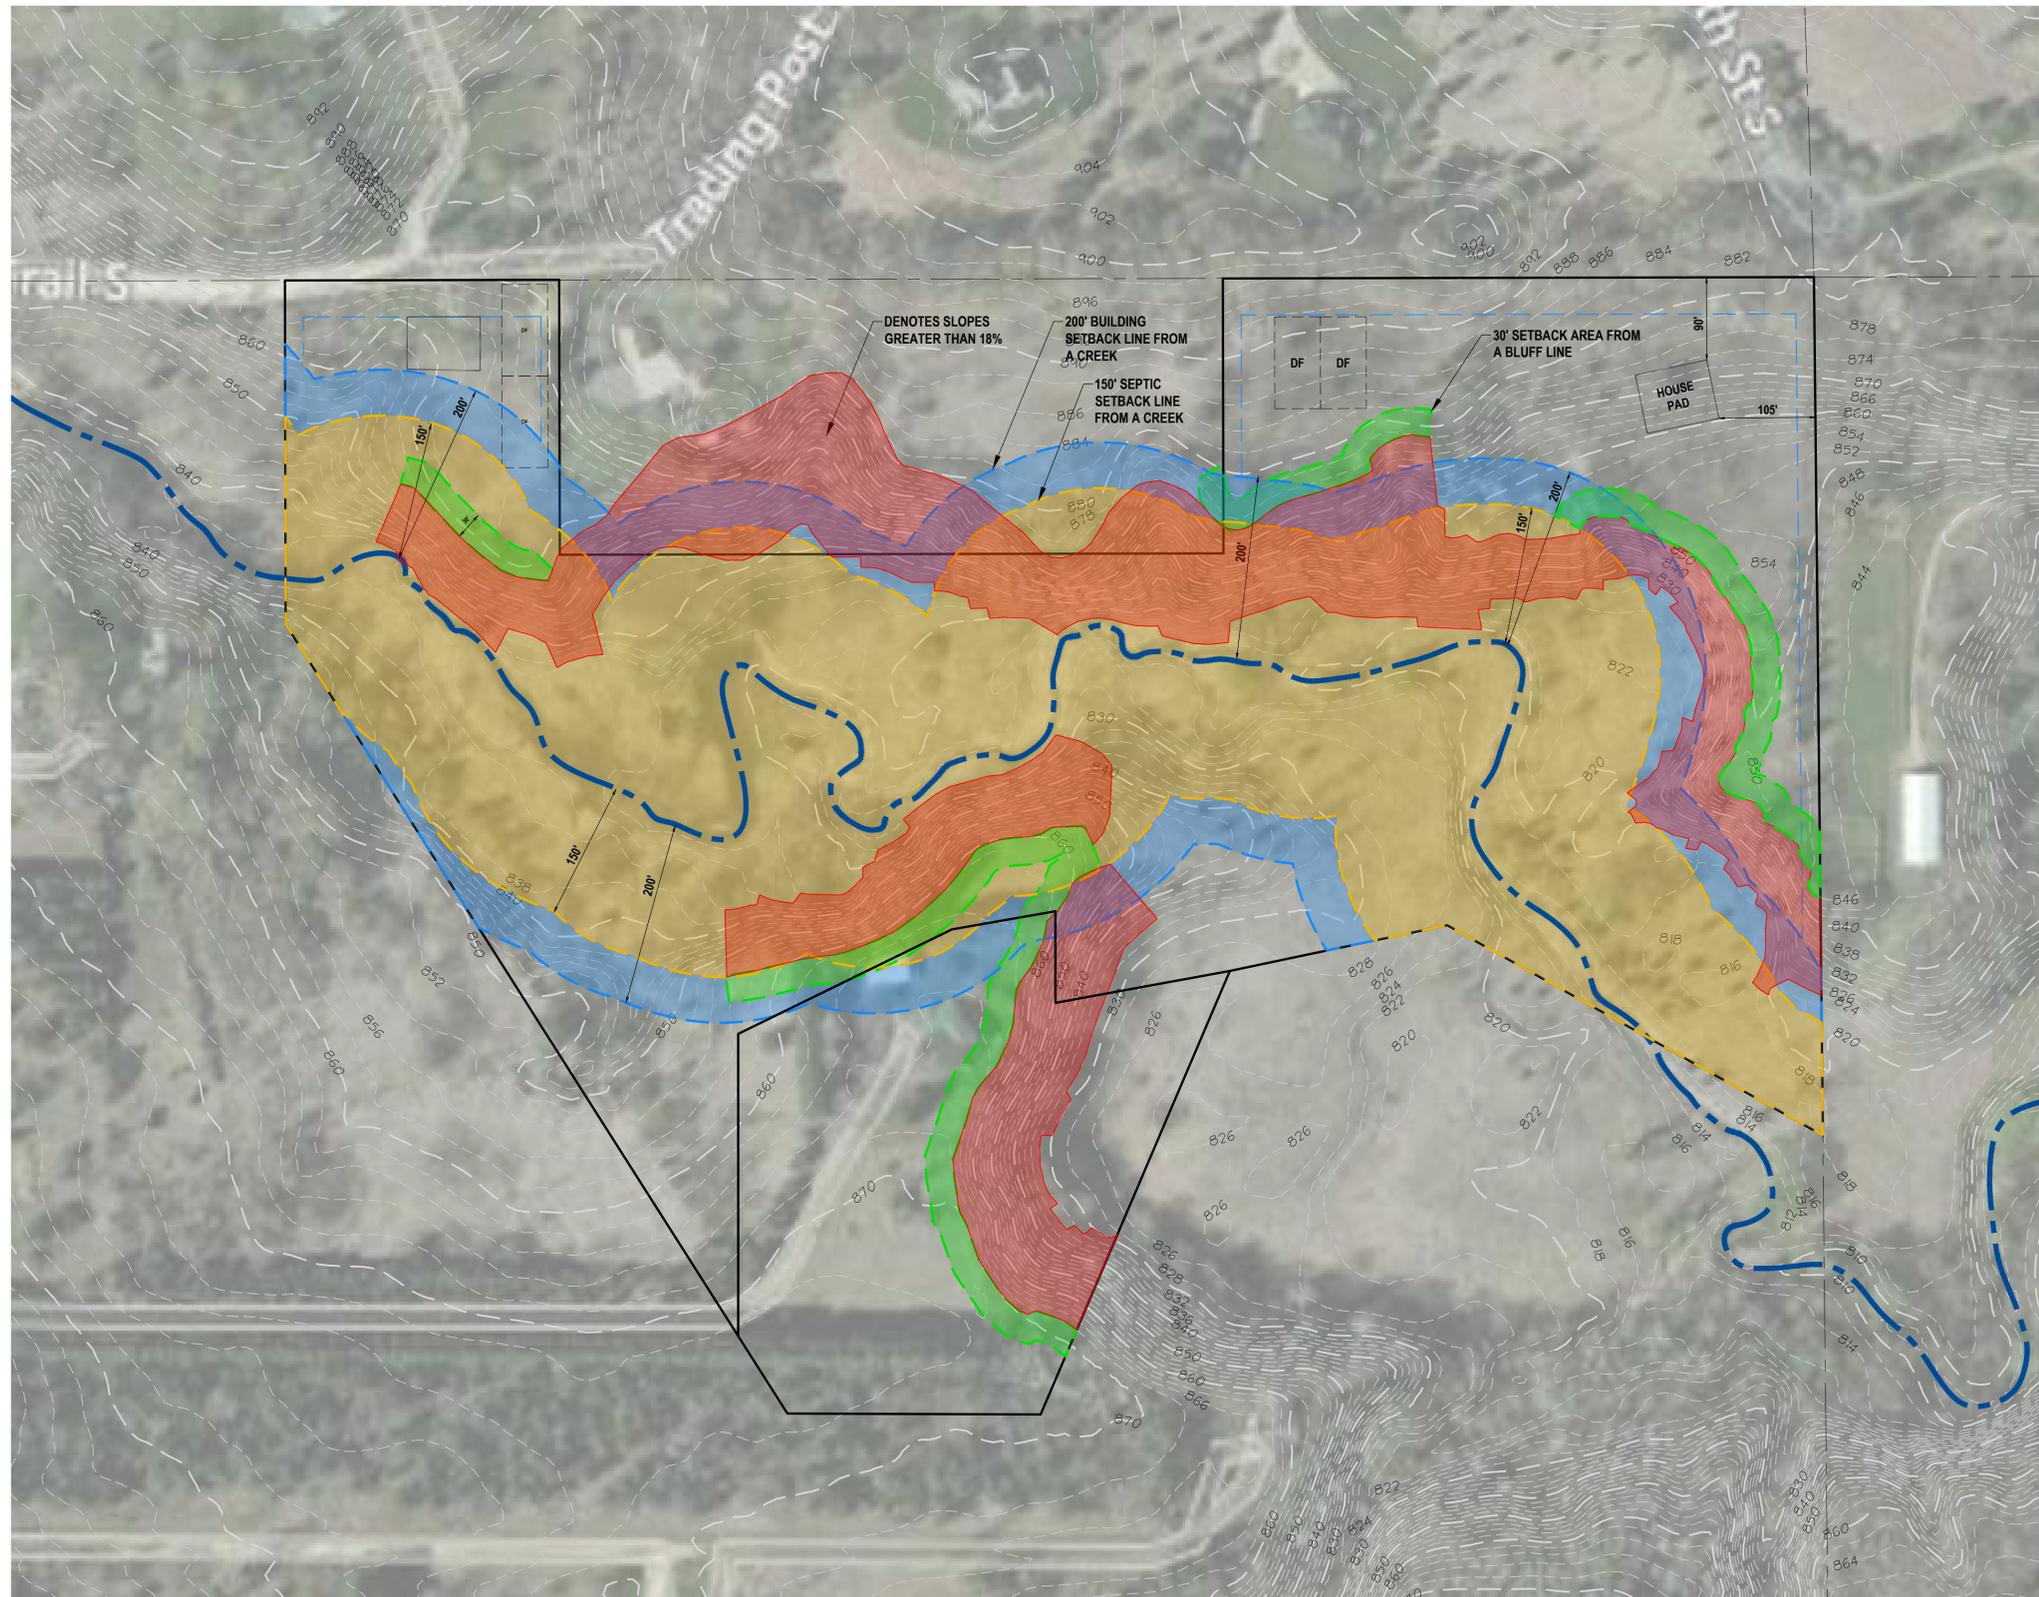

If you have questions or need additional information please contact me at 651.714.3729 or mmoore@ci.woodbury.mn.us.

Sincerely,
South Washington Watershed District

Matt Moore
SWWD Administrator
